

I would like to comment on the proposed change that would allow LPFM stations to get preference over current FM translator services. I listen to KLOVE locally in Tucson. This station, though national provides many useful services here locally in Tucson. Not only does it provide information like news but it provides announcements about events in the Tucson and Phoenix area. In a time when small stations are being overrun by large syndicates I believe it is critical that services provided by FM translators not be given to LPFM stations. I value the information I receive from KLOVE and believe it provides a much needed public service. Please do not make a decision that will reduce the availability of translator services to KLOVE in Tucson.

Respectfully

Eric Burch
